Annual Meeting
Special Interest Groups

Mission Work in Shoulder and Elbow

Chairs: Adam Seidl, MD; Shawn W. O'Driscoll, MD, PhD

Thursday, October 16th, 2025 | 10:10 am - 11:25 am

This special interest group session is intended to highlight some of the outstanding international mission work that has been done over the years by ASES members. More importantly, it is to focus on current and future opportunities that may exist for shoulder and elbow surgeons looking to get into this type of work. This interactive round-table session will rely on faculty with robust experience in mission work to provide tips and tricks to those who are driven to provide this service to underserved areas around the world.
