

FACULTY & OBJECTIVES

PARTICIPATING FACULTY

Course Co-Chairs:

Ranjan Gupta, MD
Jay D. Keener, MD
Stephanie J. Muh, MD

Senior Faculty:

Mark A. Frankle, MD
Anthony A. Romeo, MD

Faculty:

Michael H. Amini, MD
Ian R. Byram, MD
Paul J. Cagle, Jr., MD
Emilie V. Cheung, MD
Vahid Entezari, MD, MMSc
Catherine J. Fedorka, MD
Justin W. Griffin, MD
J. Gabriel Horneff III, MD
Jason E. Hsu, MD
Tyler R. Johnston, MD, MS
Hafiz F. Kassam, MD, FRCSC
Jack E. Kazanjian, DO
Joanne E. Labriola, MD

Eddie Y. Lo, MD
Augustus D. Mazzocca, MD, MS
Anand M. Murthi, MD
Sameer Nagda, MD
Randall J. Otto, MD
Eric T. Ricchetti, MD
Vani J. Sabesan, MD
Matthew D. Saltzman, MD
Adam B. Shafritz, MD
Lewis L. Shi, MD
Uma Srikumaran, MD, MBA, MPH
Jennifer Tangtiphaiboontana, MD
Melissa A. Wright, MD

COURSE OBJECTIVES

- Understand the anatomy, pathology, and surgical indications for shoulder instability
- Examine the key anatomical and pathological considerations for rotator cuff surgery
- Explore surgical approaches and indications for shoulder fractures
- Review clinical decision making for anatomic and reverse shoulder arthroplasty
- Discuss anatomy, pathology, and surgical strategies for elbow fractures and soft tissue repairs
